

# Pure PTFE Gasket

Code: KXT1300

## Description

Pure PTFE Gasket is made by cutting PTFE stick, pipe and sheet into flat shape, V shape gasket and valve annulus. It has 100% PTFE structure. It can be bear the most bitter chemical medium, and has good anti-creeping performance.

Item no.: KXT1300

## Pure PTFE Gasket

Item no.: KXT1300

- > Outstanding chemical resistance
- > Non-corrosive, non-wetting, non-contaminating and odourless
- > Excellent electrical and thermal insulation when in virgin PTFE form

## Prime Features

- \* Acid and alkali resistant
- \* Chemical resistant
- \* Has minimum friction coefficient of all know pure material
- \* Non-viscous, no aging
- \* Now molds can be made according to customers requirements.

## Specification

Apparent density: 2.10~2.30g/cm<sup>3</sup>

Tensile strength: 15.0Mpa

Ultimate elongation: 150%
